MINISTRY OF COMMERCE AND INDUSTRY

PUBLIC NOTICE

IMPORT TRADE CONTROL

New Delhi, the 21st June 1963

**SUBJECT:**—*Import of machinery, components thereof, equipment, other commodities and raw materials from the U.S. under Aid Loan 082.*

**No. 62-ITC(PN)/63.**—This Public Notice sets out the conditions applicable to import licences granted for non-project imports against financing by the U.S. Agency for International Development under Aid Loan 082.

2. Licences issued against applications in terms of the import policy for the April 1963—March 1964 period will be subject to these conditions.

APPENDIX TO MINISTRY OF COMMERCE & INDUSTRY PUBLIC NOTICE  
NO. 62-ITC(PN)/63, DATED 21-6-1963

*Terms and conditions governing the issue of import licences under Aid Loan No. 082*

(i) A list of eligible items is given in Annexure I (The inclusion of an item in the list does not, however, imply that licences for that item will necessarily be issued). The licence will be valid for the import of goods of U.S. origin and from U.S.A. only. All contracts for supply should be entered into with the U.S.A. suppliers only. Supply of non-ferrous metals from Bond in U.S.A. will not make purchase ineligible if as a result of the processing of non-ferrous metals in Bond in U.S.A. a commercially recognised new commodity results and if the commodity belongs to the supplier who is a U.S. citizen or a corporation, partnership or other Association created under the laws of the United States.

(ii) The importer should obtain from the U.S.A. Supplier Certification of United States origin as in the form attached as Annexure II and submit it along with other documents mentioned in Annexure VI to the Ministry of Finance (Department of Economic Affairs).

(iii) Except as indicated in clause (v) below before placing or agreeing to place any order against an import licence whose face value is \$5,000 or more the licensee shall fully execute the form (Annexure III) titled 'Notice to U.S. Business' regarding proposed procurement of goods and shall submit six copies thereof to the Ministry of Commerce and Industry (Aid Section), Udyog Bhavan, New Delhi within 15 days of the receipt of the licence, for approval. To the extent possible, specifications according to U.S. standards shall be indicated for all items sought to be imported and where U.S. specifications are not known full description of the goods

should be given. These details should be given in the English language. While giving the description it should be ensured that it is worded in general terms enabling all interested suppliers to send in their quotations. Care should be particularly taken to avoid mention of Model Nos., Maker's name etc. The 'Notice' should include all the items which are allowed to be imported under the import licence. The importer shall not place or agree to place any order with the supplier against an import licence whose face value is \$5,000 or more until 30 days have elapsed from the time that the 'Notice to U.S. Business' reaches the Agency for International Development, Washington. To ensure that this requirement is complied with, the Ministry of Commerce & Industry (Aid Section) will, while forwarding the 'Notice to U.S. Business' to A.I.D. for publication in 'AID Small Business Circular', advise the importer the date upto which they shall defer placing final orders. On the expiry of this waiting period and subject to their receiving no further communication either from that authority or the A.I.D., Washington, the importers may finalise orders, after considering the quotations, if any, received from the U.S. suppliers in response to the 'Notice to U.S. Business' published by the AID in the 'Small Business Circulars'. It is emphasized that if any U.S. supplier asks for information or clarification from the Indian importer in response to the 'Notice to U.S. Business' such enquiries must be answered so that the potential U.S. supplier is enabled to quote for the item of goods required. It is the responsibility of the importer to see that such enquiries are duly answered by him and not ignored. The orders as finalised with U.S. suppliers should conform to the provisions of the first sentence of clause (x) below.

(iv) Where the face value of the licence is less than \$5,000, the submission of 'Notice to U.S. Business' mentioned in clause (iii) above is not necessary and the importer can straightaway finalise orders with U.S. Suppliers. It is, however, essential that the orders as finalised should conform to the provisions of the first sentence of clause (x) below.

(v) The A.I.D. may at its sole discretion reduce the 30 days waiting period or waive this requirement pursuant to a written application by the importer in the case of procurement of proprietary items—i.e. items which are part of an existing plant or are required for the extension of an existing plant, for which orders must be placed on the original suppliers for technical reasons, or machinery and spare parts or items for which the purchaser is a franchised dealer, assembler or processor. For this purpose the importer may apply through the Ministry of Commerce & Industry (Aid Section) to the Director, Office of India, Ceylon & Nepal Affairs, Department of State, Agency for International Development, Washington 25 D.C. while submitting the form of 'Notice to U.S. Business'. Such requests should contain full justification for the requested 'waiver' and should be supported by documentary evidence wherever necessary. In no case, such requests for 'waiver' should be sent direct to A.I.D. They are to be routed through the Ministry of Commerce & Industry (Aid Section), who after satisfying themselves that a *prima facie* case for waiver exists, will forward such requests to A.I.D. for the latter's consideration and decision. The importer should not finalise the order unless the waiver applied for is granted by the Agency for International Development, Washington. Requests for grant of 'waiver' from importers who are the exclusive representatives or agents, subsidiaries, affiliates, or exclusive distributors of products supplied by a certain principal, and/or are bound by a contractual agreement to buy certain kinds or types of products only from that one supplier should be supported by a statement from the supplier similar to the following:—

"We certify that (full name and address of importer) is bound by contractual agreement to purchase his requirements of (Name or description of commodity or products) *only* from (name of supplier); that our agreement prevents his purchasing other brands of this commodity, or products from other suppliers, and that he cannot, therefore, consider competitive offers."

(vi) In the case of the purchase of certain commodities (except general purpose components) mentioned in Annexure IV the submission of the form of 'Notice to U.S. Business' mentioned in clause (iii) above is not necessary. However, before placing or agreeing to place any order with the U.S. Suppliers for these commodities the licensee should obtain and consider quotations from a reasonable selection of the U.S. Suppliers mentioned in Annexure V, (which will be amplified from time to time through issue of Public Notices or Trade Notices) in addition to those of any other suppliers whom they may already know, in making a final award. The orders as finalised should conform to the provisions of the first sentence of clause (x) below.

(vii) Holders of Actual user licences for raw materials/components may, in their discretion, import more or less of any items of raw materials/components covered by their licences, subject to the following conditions:—

- (a) the procedure in clauses (iii), (iv), (v) & (vi) above as the case may be, is duly observed;
- (b) the face value of the licence is not exceeded; and
- (c) the excess in respect of any individual item will not exceed 25 per cent of the value limit, if any, indicated in the licence itself for that particular item.

Further, within the face value of the licence, the licence holder will be allowed to import permissible spare parts and small tools required for the purposes of his factory provided that the value of such imports will not exceed 25 per cent of the face value of the licence and further that banned items of spare parts and small tools should not be imported under this scheme. It is, however, pointed out that for import of spare parts a 'Notice to U.S. Business' is necessary and the importer has to comply with the provisions of clause (iii) above. Where however the importer wants a waiver of the requirement of 'Notice to U.S. Business' in so far as particular spare parts are concerned, he should follow the procedure outlined in clause (v) above. In regard to import of small tools the procedure outlined in clause (vi) above shall be followed.

The facility allowed in this clause will be applicable to Actual User licences for raw materials/components and not to the licences granted for machinery and/or spare parts. Actual user licences for components would be those where certain components are allowed to be imported for the assembly of the finished product.

The facility to import permissible spare parts and small tools required for licence holders' factory upto 25 per cent of the face value of Actual User licences for raw materials and/or components will be available even where the licence does not cover more than one item. The permissible spare parts are those required for the servicing, maintenance and replacement purposes of the Plant, machinery and equipment installed in licence holder's factory. But spare parts of machinery which are specified elsewhere in the Red Book, such as ball bearings, bolts and nuts etc. will not be allowed to be imported. The small tools are the tools covered by S.No. 20/II. Small tools falling under S.No. 20/II other than those specified in Appendix 15 of the Red Book and which are shown as licensable to actual users will be considered as permissible small tools.

The above facility will be allowed by the Customs authorities on the strength of this Public Notice and it will not be necessary for licence holders to get their licences specially endorsed for this purpose.

(viii) Payments against the import licences may be made by the importers through the authorised dealers in foreign exchange in India in the normal manner. The importers shall stipulate in their contracts with suppliers a condition that payments, when due in accordance with the terms of the contracts, will be made only on presentation to the Bank concerned of all the documents detailed in Annexures II and VI. The Authorised Dealers in foreign exchange, while making requests to their correspondents in U.S.A. for opening letters of credit in favour of suppliers should also instruct the U.S. correspondents to open the letters of credit with the explicit condition that payment will *inter-alia* be subject to the presentation by the supplier to the Bank concerned of a complete set of documents as detailed in Annexures II and VI. These documents will be forwarded by the U.S. Banks to the Indian Banks concerned, who will in turn pass them on to the Ministry of Finance (Department of Economic Affairs), Economic Aid Accounts Section, New Delhi, with the particulars of the relative import licence duly noted on each of these documents. The above condition regarding documentation will also apply to cases where bills are received by the Authorised Dealers in Foreign Exchange on collect basis to cover imports. This, will however not absolve the importers from the responsibility of submission of proper documents. The procedure of collection of documents by the Authorised Dealers in foreign exchange will not apply to imports of sulphur.

(ix) Within a fortnight of the placement of orders, a report should be sent to the Ministry of Commerce & Industry (Aid Section) supported by the following information/documents:—

- (a) Number and date and value of the licence.
- (b) Value of orders placed and accepted by the supplier.
- (c) Name and address of the supplier.
- (d) General description of the equipment to be imported.
- (e) A copy of the order placed on the supplier and of his acceptance.

A copy of the above report supported by the required information/documents should also be furnished to the Ministry of Finance, Department of Economic Affairs (Economic Aid-Accounts Section), New Delhi for their information. Any change in the terms of the order should be intimated promptly to the Ministry of Commerce and Industry (Aid Section) as well as to the Ministry of Finance (Department of Economic Affairs).

(x) The goods should be procured at reasonable prices which should normally approximate the lowest competitive export market price, quality, time and cost of delivery and other factors considered. Prices for such goods which are purchased in bulk shall not exceed the market price prevailing in U.S.A. at the time of purchase, adjusted for differences in the cost of transportation to destination, quality and terms of payment. The prices at which contracts are concluded by the importer will be subject to check by the Indian Government. Any contracts entered into in violation of conditions of this paragraph will render the licence liable to cancellation. Goods imported under this import licence shall be used only for the purpose for which the import licence is issued and/or in accordance with such conditions as may hereafter be prescribed by Government. The importer shall promptly furnish to the Ministry of Commerce & Industry (Aid Section) all relevant information concerning details of purchase and the use of goods obtained under the import licence.

(xi) It should be ensured that at least 60 per cent of the total tonnage of all orders (computed separately for dry bulk carriers, dry cargo liners and tankers) is shipped on U.S. flag commercial vessels.

(xii) The remaining 40 per cent of the total tonnage of all orders (computed separately for dry bulk carriers, dry cargo liners and tankers) should be shipped on Indian vessels to the extent that such Indian vessels are available at competitive and reasonable rates of freight. If, however, no suitable Indian vessel is available at competitive and reasonable rates, a non-availability certificate about Indian vessels should be obtained by the Importer/Suppliers from the Secretary, Shipping Co-ordination Committee, Department of Transport, New Delhi (Cable—Transport). Freight charges in respect of goods transported on Indian flag vessels shall be payable in Indian rupee only.

If the non-availability of Indian flag vessels is established in the manner prescribed above, the importer/supplier may ship those goods in a third country vessel. The vessel so used should be of countries included in code 899 of the I.C.A. Geographic Code in effect at the time of shipment. The Code includes all countries except the following:—

The Union of Soviet Socialist Republics, Albania, Bulgaria, Czechoslovakia, East Germany, Estonia, Hungary, Latvia, Lithuania, Rumania, Poland, Danzig, Vietnam (North), North Korea, China (Mainland), and communist controlled areas (which include Manchuria, Inner Mongolia, the provinces of Tsinghai and Sikang, Sinkiang, Tibet, the former Kwantung leased territory, the present Port Arthur Naval Base Area, and Liaoning Province), Outer Mongolia, and Cuba.

Where goods are shipped in a third country vessel in the circumstances mentioned above, the importer should immediately make an application to the Reserve Bank of India, Bombay under advice to the Ministry of Commerce & Industry (Aid Section) duly supported by the non-availability certificate as mentioned above in respect of Indian flag vessels, for release of the necessary foreign exchange for the payment of ocean freight to such vessel.

For sulphur imports these shipping conditions have been modified as a result of undertakings given by the importers concerned to Government. Collector of Customs will not see to the compliance of these shipping conditions in respect of sulphur imports.

(xiii) No part of the goods covered by the licence should be shipped in any of the vessels notified in the Ministry of Commerce & Industry Public Notice No. 32-ITC(PN)/63, dated the 16th April, 1963 as amended from time to time.

(xiv) Goods covered by the licence should not be carried in vessels chartered for the purpose unless such charter has been approved in advance by the A.I.D.

(xv) Marine insurance may be effected either with U.S. or Indian Insurance Companies. In respect of insurance covered with Indian Insurance Companies, insurance premium shall be payable in rupees.

(xvi) Claims for deficiency in quality and specifications, for defective goods, shortlandings, damages, etc. with the suppliers/steamer companies shall be settled in dollars, the payment being remitted by the supplier to the concerned Bank in India of the Importer. There is, however, no objection to claims arising out of shortlandings of packages, damages to goods, while in transit with shipping companies, being settled by the shipping companies' representatives in India in rupees. Immediately upon the settlement of claims, the importer should notify the Ministry of Commerce & Industry (Aid Section), New Delhi all the details of such payment and also furnish a certificate from the Indian Bank that the necessary foreign exchange earned in connection with the settlement of the claims has been received in India. A copy of the report to the Ministry of Commerce and Industry and a copy of the certificate of the Indian Bank should be sent to the Ministry of Finance (Department of Economic Affairs, Economic Aid Accounts Section), New Delhi. In addition a quarterly statement as in the form enclosed as Annexure VII should be rendered to the Ministry of Commerce and Industry (Aid Section) along with the other quarterly reports indicated in clause (xviii) below. It is imperative that importers should receive the claims in India and should in no case arrange for their being credited to their accounts, if any, with the suppliers/shipping companies abroad.

(xvii) The importer shall make arrangements with his suppliers to comply with the requirements regarding marking of the commodities imported as set out in Annexure VIII.

(xviii) The importer shall maintain books and records adequate to identify the items financed under the loan; to disclose their costs and their use, to show the nature and extent of solicitation of prospective suppliers and the basis for the award of the contracts or orders involved and to indicate the progress in their utilisation. Such books and records shall be maintained until such period as A.I.D. may indicate in the loan agreement or Implementation Letter. The importer shall enable the authorised representatives of the AID to inspect the utilisation of all items financed under the Loan and the records and books maintained in that connection and shall afford all reasonable opportunity and assistance to them for such examination. The importers shall submit to the Ministry of Commerce and Industry (Aid Section), New Delhi with copy endorsed to the Ministry of Finance (Department of Economic Affairs, Economic Aid Accounts Section, New Delhi) quarterly reports for each calendar year giving details of (i) procurement and utilisation; (ii) Ocean shipping and (iii) Orders or contracts for \$ 50,000 or, more in the forms attached as Annexures IX to XII. These reports shall be submitted within ten days after the expiry of the quarter under report.

(xix) The importer should apprise the supplier of any special provisions in the import licences which affect the suppliers in carrying out the transaction.

(xx) It should be understood that the Government of India will not undertake any responsibility for disputes, if any, that may arise between the importers and suppliers.

(xxi) The importer shall promptly comply with any directions, instructions or orders issued by Government regarding any and all matters arising from or pertaining to the import licences and for meeting the obligations under the agreement.

(xxii) *Breach or violation.*—Any breach or violation of the conditions set forth in the clauses mentioned above will result in appropriate action under the Imports and Exports (Control) Act.

## ANNEXURE I TO PUBLIC NOTICE No. 62-ITC(PN)/63 DATED 21-6-1963.

## LIST OF ELIGIBLE ITEMS:

1. Non-ferrous metals and non-ferrous metal compounds.
2. Alumina.
3. Steel.
4. Capital machinery, including construction and earthmoving equipment and spare parts thereof.
5. Auto components and spare parts including truck spares.
6. Garage equipment.
7. Machine Tools, and spare parts thereof.
8. Compressors, ball bearings and other general purpose components and spare parts.
9. Elevator components and spares.
10. Cutting tools, small tools, abrasive grains and other types of tools required by engineering industries.
11. Refractories and rolls for steel plants.
12. Storage and transport tanks and cylinders for liquid oxygen, nitrogen and other industrial gases.
13. Calculating and accounting machines and spare parts thereof.
14. Industrial Explosives.
15. Fertilizers.
16. Synthetic rubber.
17. Tire cord synthetic yarn.
18. Antioxidants for rubber.
19. Sulphur.
20. Rock phosphate.
21. Pulp including rayon grade pulp.
22. Newsprint.
23. Lubricants, additives.
24. Aviation spirit.
25. Dehydrogenated resin.
26. Fatty acids.
27. Extender oil.
28. Synthetic Latex (dry rubber basis).
29. Caustic soda.
30. Dye-stuffs.
31. Rutile titanium dioxide.
32. Styrene Monomer.
33. Phenol.
34. Cellulose acetate butyrate/Cellulose propionate moulding powder.
35. Borax and boric acid.
36. Calcined petroleum coke.
37. Carbon Black and Acetylene Black.
38. Electrode carbon and Electrode Carbon rods.
39. Resins; Vinylite, bakelite and horcolyn.
40. Film laminate with paper backing.
41. Electrode: Duplex, Tabbed Duplex and Film lined.
42. Toluol.
43. Staple fibre.
44. Antibiotics.
45. D.D.T., Chloroquine and Pyramethimine tablets.
46. Chlorex or equivalent Dichlor Diethyl ether.

- 47. Miscellaneous Industrial Chemicals.
- 48. Industrial adhesives.
- 49. Raw rubber and tin (from U.S. stockpile).

NOTE 1.—Licences for rubber and tin from U.S. stockpile will not be governed by the provisions of this Public Notice. The conditions applicable to them will be intimated before issue of the licence.

NOTE 2.—Licences for capital machinery will not be governed by the provisions of this Public Notice and the conditions applicable to such licences will be intimated before issue of the licence.

#### ANNEXURE II TO PUBLIC NOTICE NO. 62-ITC(PN)/63 DATED 21-6-1963

## ANNEXURE VI TO PUBLIC NOTICE NO. 62-ITC(PN)/63, DATED, 21-6-1963

## DOCUMENTS REQUIRED FROM SUPPLIERS

For cost of goods including costs of freight and/or marine insurance where the supplier pays such costs either for his own or the buyer's account:

- (1) One copy (or photostat) of the suppliers' detailed invoice showing quantity, description, gross sales price, net sales price (after deducting all discounts) and purchasing agents (commissions applicable) basis of delivery (e.g., F.O.B. vessel, F.A.S.) of the goods or services, and either;

- (a) Marked 'paid' by the supplier, or

- (b) Endorsed by, or accompanied by a certificate of an officer of a banking institution indicating that payment has been made in the amount shown in the invoice.

(Where the suppliers' detailed invoice covered cost of ocean freight only, such invoice shall be executed by the supplier of the ocean freight and shall indicate instead of the quantity, description, sales prices and basis of delivery indicated above, the vessel, flag and the dollar and/or local currency cost of ocean freight and related transportation charges and either (a) marked 'paid' by the supplier of the ocean transportation or (b) endorsed by, or accompanied by a certificate of an officer of a banking institution indicating that payment has been made in the amount shown on the invoice. If the bill of lading [required by sub-paragraph 3(a) of this paragraph] meets the requirements of this sub-paragraph no invoice is required.

- (2) In the case of goods shipped from a free port or bonded warehouse, the suppliers should endorse on, or attach to, the copy (or photostat) of the supplier's invoice, a statement indicating:
- (a) Shipment from either a free port or bonded warehouse, in accordance with the facts; and
  - (b) the country or area from which the goods were shipped into such free ports or bonded warehouse.
- (3) Evidence of shipment:
- (a) Bill of lading or substitute, one copy (or photostat) of ocean or charter party bill of lading, or airway bill, or parcel post receipt.
  - (b) Bank certificate for shipments from United States. In the case of any commodity shipped from the continental United States (excluding Alaska) a certificate from the banking institution to the effect that it has been informed by the Approved Applicant or supplier that the sale is on an F.O.B. or F.A.S. basis and it is impracticable to furnish an ocean or charter party bill of lading, airway bill or parcel post receipt, and that either:
    - (i) Shipment documents sent by bank. The banking institution has received a common carrier bill of lading, warehouse receipt, mate's receipt, master's receipt, dock receipt or domestic parcel post receipt (if in non-negotiable form, showing that the commodity has been consigned to or is being held for a person or organisation designated by the approved applicant); it has delivered or sent the same, in accordance with the instructions of the approved applicant, to a person or organisation designated by the approved Applicant; and it has in its possession a written undertaking of such person or organisation (1) to arrange for ocean shipment and to deliver to the banking institution a copy (or photostat) of the ocean or charter party bill of lading, airway bill, or parcel post receipt or (2) if unable to arrange for ocean shipments within 90 days of the date of the undertaking to deliver to the banking institution a common carrier bill of lading or warehouse receipt in negotiable form for the commodity; or
    - (ii) Shipment document held by bank. The banking institution has received a common carrier bill of lading or warehouse receipt in negotiable form, and is in possession of the bank; it has been unable to deliver the same to a person or organisation designated by the Approved Applicant against the written undertaking described in (1) of this sub-division, and it is holding the negotiable common carrier bill of lading or negotiable warehouse receipt except that if it becomes possible before any such instructions are received, it will proceed in accordance with (1) of this sub-division.
- (4) Three copies of the "Supplier's Certificate" and "Invoice and Contract Abstract" in Annexure XIII signed by a responsible official of the supplier, covering the following:
- (a) The cost of the commodity, including the costs of ocean freight and/or marine insurance including war risk insurance when such costs are paid by the supplier for his own or the buyer's account to be executed by the supplier of the commodity.
  - (b) The cost of ocean freight to be executed by the ocean carrier.
  - (c) The cost of marine insurance including war risk insurance to be executed by the insurer, insurance broker, or underwriter.
- (5) Such additional or substitute documentation as may be specified.

ANNEXURE VIII TO MINISTRY OF COMMERCE AND INDUSTRY PUBLIC  
NOTICE NO. 62-ITC(PN)/63, DATED 21-6-1963

## MARKING REQUIREMENTS

*Goods and Shipping Containers*

Except as otherwise provided below, all loan financed goods (including machinery, equipment and materials) and their shipping containers will carry an emblem or other marking appropriately indicating the cooperation of the Government of the United States in furnishing assistance in the financing of the goods. Normally, these emblems or markers are affixed by the suppliers of the goods. Importers under AID Loans are responsible for assuring that suppliers of loan-financed goods receive necessary instructions concerning AID marking requirements.

**1. Type of Emblem or Marker:**

The requirements of the foregoing paragraph may be complied with by affixing a label, decalcomania, stencil, tag, metal plate, or by other means. The kind of emblem and size will depend on the type of commodity or shipping container and the nature of the surface to be marked, but in all cases must be large enough to be clearly visible at a reasonable distance. Emblems placed on goods must be substantially as durable as the trade mark or brand name affixed by the producer; emblems on shipping containers must be legible until they reach their destination. A list of firms that supply emblems satisfactory to the AID is attached hereto.

**2. Exemptions and Walvers:**

(a) **Exempted Goods.**—Materials shipped in bulk, and semi-finished products that are not packaged in any way are exempt from the above prescribed marking requirements. If such materials or semi-finished products are shipped in containers of any kind, appropriate markers as described above shall be placed on or attached to the containers.

(b) **Walvers.**—Upon representation to the AID by the Importer through the Ministry of Commerce and Industry that strict compliance with the marking requirements, in their application to particular shipments or categories of goods, will result in undue hardship, disproportionate expense, delay in delivery of the goods, or is otherwise impracticable, the AID will consider waiving the marking requirements as they apply to the particular shipment or category of goods, or may prescribe alternative means for complying with the requirement.

## DEPARTMENT OF STATE

## AGENCY FOR INTERNATIONAL DEVELOPMENT

WASHINGTON 25, D.C.

## LIST OF U.S. SUPPLIERS OF OFFICIAL EMBLEM

The following firms have indicated that they stock the American Aid emblem in one form or another, or will produce it on order. The inclusion of these names on this list should in no way be interpreted as AID endorsement of the firms or their products. The list is not to be regarded as restrictive in any way since obviously similar items can be produced by additional firms which are not known to this agency. The names of such firms will, upon request, be added to subsequent lists. Commodity suppliers are responsible for obtaining and using emblems as visible and durable as the trade mark or company or brand name affixed by the producer of the commodity.

## ANNEXURE XIII TO MINISTRY OF COMMERCE AND INDUSTRY PUBLIC

NOTICE NO. 62-ITC(PN)/63, DATED 21-6-1963

## DEVELOPMENT LOAN FUND SUPPLIER'S CERTIFICATE

The supplier hereby acknowledges notice that the sum indicated on the accompanying invoice as claimed to be due and owing under the terms of the underlying contract is to be paid out of funds made available by the United States under the Mutual Security Act, as in effect, on the date hereof, and further certifies and agrees with The Development Loan Fund (DLF) as follows:—

(1) The supplier is entitled under said contract to the payment of the sum claimed and he will promptly make appropriate refund to DLF upon request of the Development Loan Fund in the event of his non-performance, in whole or in part, under said contract, or for any breach by him of the terms of this certificate.

(2) Adjustment refunds or credits arising out of the terms of the contract or the customs of the trade shall be made direct to the buyer, but the supplier will promptly notify the Development Loan Fund concerning any such adjustment refunds or credits, so that the Development Loan Fund may obtain appropriate refund from the borrower. If an adjustment results in an additional charge to the purchaser, the supplier will promptly notify the Development Loan Fund of such additional charge.

(3) If the said contract is on a C&F (cost and freight) or a CIF (Cost, insurance and freight) basis, the supplier is entitled to payment of any ocean freight charges included in the sum claimed. The Supplier is entitled to payment of any ocean marine insurance premium charges included in the sum claimed.

(4) The supplier is the producer, manufacturer, processor, or exporter of, or a regular dealer in, the commodity, or furnishes the service covered by said contract and has not employed any person to obtain said contract under any agreement for a commission, percentage, or contingent fee, except to the extent, if any, of the payment of a commission to a *bona fide* established commercial or selling agent employed by the supplier as disclosed on the reverse of this form.

(5) The supplier has not given or received and will not give or receive by way of side payment, 'Kickbacks', or otherwise, any benefit in connection with said contract except as is disclosed on the reverse of this form, or as in the result of the adjustments referred to in paragraph 2.

(6) If the supplier is the producer, manufacturer or processor of a commodity, said contract is not a cost plus-a-percentage-of-cost contract.

(7) The supplier further certifies that to the best of his information and belief the purchase price does not exceed the export market price in the source country prevailing at the time of purchase.

(8) The supplier further certifies that (a) the purchase price does not exceed the price charged by him in a comparable sale of the same or a similar commodity, (b) he has allowed all discounts, including discounts for quantity purchase and prompt payment, customarily allowed to his other customers similarly situated.

(9) If the supplier furnishes only a service, he shall not be deemed to certify to paragraphs 7 and 8 but instead certifies that the rate indicated on the reverse of this form for the service rendered does not exceed the prevailing rate, if any, for similar services, or the rate paid to the supplier for similar services by other customers similarly situated.

(10) The supplier has filled in the applicable portions of the invoice-and-contract abstract on the reverse hereof, certifies to the correctness of the information shown, therein, and will furnish promptly to the Development Loan Fund at its request, such additional information in such form as the Development Loan Fund may require concerning price or any other details of the purchase.
